H. R. UZIELLI,
Deputy Secretary to Government.

Fort St. George, July 28, 1925
(G.O. No. 1543, P.H.)

No. 904.—In December 1924 a Muhammadan woman and her daughter aged about 8 years who were found begging in the streets of Madras were admitted into the Government Hospital for Women and Children, Egmore. The mother died on 2nd March 1925 of debility and the Pesh Imam of Triplicane mosque was communicated with and the body buried; but no one came forward to take charge of the girl, though the Pesh Imam was informed of her existence. According to the instructions of the Commissioner of Police previously issued that there was no objection to the handing over of foundlings to recognized institutions, such as the Society for the Protection of Children, Tondiyarpet, Civil Orphan Asylum, or to respectable people who may care to bring them up, the Superintendent of the hospital handed over the girl to Miss S. M. Grove of the Church of England, Zenana Mission, Vepery, on her application.

2. In the meantime the President of the Anjuman-i-Himayathi Islam, Triplicane, Madras, made a representation to the Commissioner of Police and the Government in the matter. The Government have instituted a careful inquiry and understand that the incident occurred as the instructions of the Commissioner of Police referred to above did not make it clear that a foundling should only be handed over to an institution or person of the foundling's religious denomination. They are however glad to learn that the father of the girl has been traced and has taken charge of her.

3. In order to prevent the recurrence of similar incidents the Government are pleased to issue the following instructions for the guidance of officers in charge of Government, local fund and municipal medical institutions in the City of Madras and in the mufassal:—

(1) the officer in charge of a medical institution may hand over a foundling to any institution or person of the religious denomination to which the foundling belongs provided that the institution or person has been approved by the Commissioner of Police in the case of the Madras City or by the District Magistrates concerned in the case of mufassal institutions;

(2) the institution or person shall return the foundling to its parents or relatives should they be found or appear and claim it; and

(3) all such cases should be reported to the Commissioner of Police or the District Magistrates concerned without delay.

4. The Commissioner of Police, Madras, and the District Magistrates should make enquiries from time to time to ensure that the foundlings entrusted to institutions or persons are taken proper care of and educated suitably until they are able to earn their living or (in the case of girls) marry.

GINGELLY CROP OF 1925-26—FIRST REPORT.

(On an average of the five years ending 1923-24, the area under gingelly in the Madras Presidency has represented some 13·4 per cent of the total area under gingelly in India.)

The area sown with gingelly up to the end of July 1925 is estimated at 390,300 acres against 361,900 acres on the corresponding date of last year, an increase of about 8 per cent. The increase occurs mainly in the Circars and Carnatic districts and in Coimbatore where good showers were received in May. The area in the Deccan has decreased by more than 40 per cent, owing to want of adequate sowing rains in June and July.

2. Normal yields may be expected in most districts.

3. Details by districts are given in the statement appended.

(Area in hundreds of acres, i.e., 00's being omitted.)

THE COTTON CROP OF 1925-26—FIRST REPORT.

(On an average of the five years ending 1923-24, the area under cotton in the Madras Presidency has represented 10·3 per cent of the total area under cotton in India.)

The area sown with cotton up to the end of July 1925 is estimated at 209,600 acres as against 228,600 acres on the corresponding date of last year or a decrease of 8 per cent.

2. The area in the south does not relate to new sowings but to last year's crops from which some pickings will be obtained before 1st September when they will have to be removed under the operations of the Pest Act or to prepare the land for a cereal crop. The area as left over has increased in Salem and Madura owing to the favourable showers in May.

3. There has been a falling off in the "Northern" and "Western" area owing to the partial failure of the south-west monsoon rains in June and July. There has been an increase in the Area sown in the Coconadas tract, especially in Guntur, as the season has been favourable.

4. Figures by districts are given in the statement appended.
